## **Prepared by the Fresno Police Department**

**October 20, 2010**

### **Background**

In April, 2010, owners of the Twist Restaurant were granted an ABCUP to operate a nightclub at the business, 7835 N. Palm Avenue, Fresno. For several months prior, the Fresno Police Department had been responding to the location, which was opened as a restaurant in late 2007, regarding a variety of calls for service (CFS). Concerns of the Fresno Police Department at the time consisted of:

- Excessive CFS
  - Including disturbances, intoxicated subjects, and violations which were referred to the California Department of Alcoholic Beverage Control (ABC)
- Dancing at the location
  - In violation of their existing ABCUP
- Inadequate security measures
  - In violation of their existing ABCUP

Despite numerous documented violations of their existing ABCUP, an agreement was reached between the owners, the Fresno Police Department and the Planning Department to approve conditions for a nightclub type ABCUP, with the stipulation that the permit only be valid for one year. A six month review would take place to “grade” the establishment and their operation as a nightclub.

### **Grade**

Understanding that on a scale of ‘A’ being the best and ‘F’ being the worst, in the opinion of the Fresno Police Department Twist and its owners/operators would have been graded with an ‘F’ in May, 2010. Conditions placed on the establishment, as explained in the ABCUP, were implemented in an attempt to address concerns of the Fresno Police Department and still allow the establishment to operate as a nightclub.

In reviewing the operating of Twist after six months, it is the opinion of the Fresno Police Department that the establishment would now receive a grade of ‘C-’. While this is an improvement since the beginning of the review period, there are still concerns that the

establishment is not meeting its required goals, as explained in the ABCUP. Concerns of the Fresno Police Department at this time consist of:

- CFS
  - While the amount of CFS at the establishment has decreased in volume, averaging approximately 3 CFS per month since May 15, 2010, there continues to be a concern that patrons are becoming intoxicated while at the establishment and creating disturbances, driving away from the location, becoming unable to care for themselves, etc. Several meetings between the owners of Twist and representatives of the Fresno Police Department have taken place to discuss this concern; however, there are still repeated CFS regarding these same issues.
- Inadequate Security
  - Incidents have increased in the parking lot and several complaints were received regarding security at the location. A recent change in companies responsible for security outside the establishment has helped to resolve this issue.
- Overcrowding
  - Complaints about the amount of people allowed into the establishment have been received by the Fresno Police Department. During a surprise inspection as well as during regular checks of the establishment, these complaints have not been shown to be an issue.

The Twist and its operation as a nightclub will continue to be monitored during the remainder of its review period.
